

17-18 HIGH PERFORMANCE RENTAL SNOWBOARDS

MEN'S SNOWBOARDS

BATALEON

Bataleon DISASTER

Flex: 2/10

Manoeuvrability: 3/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 153

Description: A true twin in every sense with JIB TBT for stable board slides with great bend and super legit presses. The DISASTER is built around a TOUGHCORE to give it a soft flex without sacrificing strength.

Features: Jib Tech TBT (triple base technology)

Best in: Freestyle

Bataleon ETA

Flex: 6/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 156

Description: The ETA is based on the Evil Twin, but with an asymmetrical sidecut and base profile. The asym design is made to give you stronger heelside turn, which is balanced with your toeside to give you a very smooth and natural feeling between turns. One board that will carve like crazy and still handle the biggest features in the park.

Features: Jib Tech TBT (triple base technology)

Best in: Freestyle

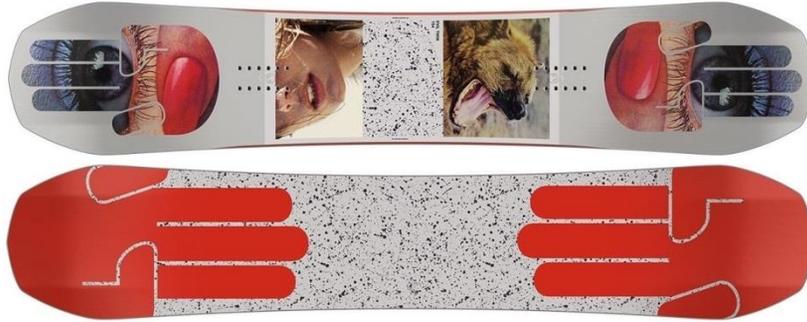

**Bataleon
EVIL TWIN**

Flex: 6/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 154,157

Description: Very poppy and super stable. A true twin shape with Jib Tech TBT, the EVIL TWIN is equally at home on big park kickers and backcountry booters. It also carves like a dream on groomers.

Features: Freestyle TBT (triple base technology)

Best in: Freestyle, all-mountain

**Bataleon
FUN.KINK**

Flex: 3/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 157

Description: A true twin built around the softest version of Bataleon's CORE core. This gives it a very soft flex without sacrificing strength and makes the FUN.KINK one of the most forgiving and fun-to-ride men's boards

Features: Freestyle TBT (triple base technology)

Best in: Freestyle, all-mountain

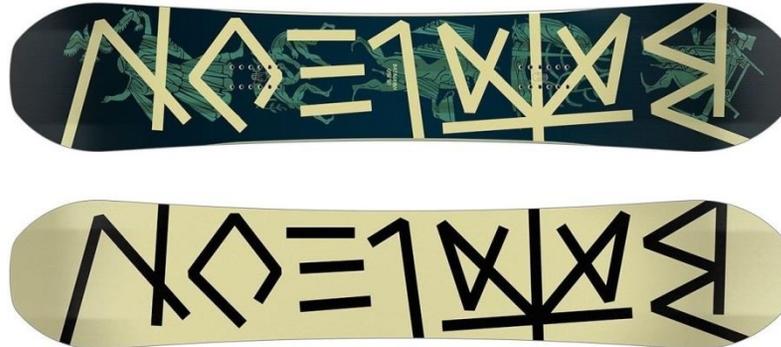

**Bataleon
GLOBAL WARMER**

Flex: 3/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 156

Description: Global Warmer is a park warrior. With carbon stringers under the bindings, experience next-level performance with extreme pop, paired with Sintered Base technology which makes this thing really fly.

Features: Freestyle TBT (triple base technology)

Best in: Freestyle, all-mountain

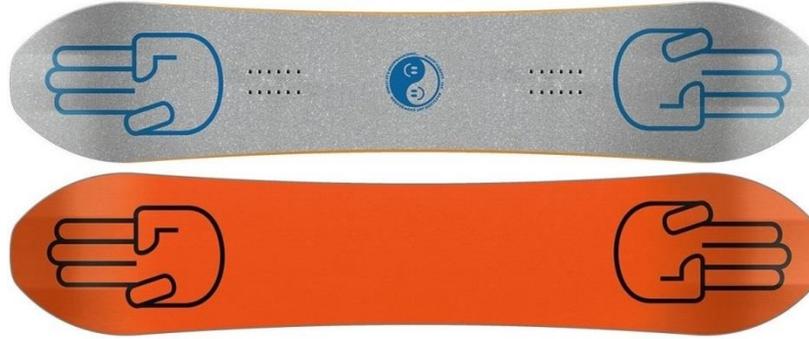

Bataleon
MAGIC CARPET

Flex: 4/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 154

Description: The Magic Carpet is a freestyle, pow floating machine so, they couldn't name it anything else, the Twin Pow 3BT providing a sturdy and responsive ride when riding over those freshies.

Features: Twin pow TBT (triple base technology)

Best in: Freestyle, all-mountain, powder

Bataleon
WALLIE

Flex: 3/10

Manoeuvrability: 6/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 154

Description: Get giddy and jibby with the all new Wallie. This board was built for progressive jib and park riders, built with skate-inspired turned-up WallieTips for rider comfort and less hang-ups on man-made features and obstacles. The Jib 3BT™ profile is stable while encouraging a loose, buttery ride. Press, ollie, and stomp this board all day long.

Features: Jib TBT (triple base technology)

Best in: Freestyle

DC

DC FOCUS

Flex: 3/10

Manoeuvrability: 5/10

Camber: Flat with rocker tip and tail

Lengths: 137,153

Description: The Focus features a true-twin shape and forgiving flex. With 3° bevel on the edges plus user-friendly anti-camber profile, this is a top choice for beginners and riders looking to step up their skills.

Features: Sintered Base, Impact Core, Quadrax Carbon Stringers

Best in: Freestyle, all-mountain

DC MEGA

Flex: 7/10

Manoeuvrability: 8/10

Camber: Camber

Lengths: 156

Description: The Mega gets all the good parts of the DC Ply and takes it up another notch. The Lock & Load camber will give you tons of pop and keep it stable, so you can take the Mega to the biggest jumps without worrying about having it wash out on landings. The fast sintered base will keep you moving fast no matter the snow conditions, and the Fresh Deck Top Sheet gives you the feel of a new skate deck, right in the board.

Features: Sintered supreme Base, Stratus Core, Quadrax Carbon Stringers

Best in: Freestyle, all-mountain

DC PLY

Flex: 6/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 153,156

Description: This is a team favourite. One of the more poppy and energetic boards in the DC line, it guarantees higher ollies and bigger slashes. The hybrid camber gives you all the benefits of the forgiving and playful reverse camber, but adds a snappy and responsive feel to the board.

Features: Sintered Base, Impact Core, Quadrax Carbon Stringers

Best in: Freestyle, all-mountain

DC
SPACE ECHO

Flex: 7/10

Manoeuvrability: 8/10

Camber: Camber

Lengths: 158

Description: Laid up with a classic cambered profile using sturdy poplar, beech and triax fiberglass, DC has cooked up a powerful deck for attacking the entire mountain with power and velocity

Features: Sintered Base, Stratus Core, Triax laminates.

Best in: Freestyle, all-mountain

DC
SUPERNATANT

Flex: 8/10

Manoeuvrability: 8/10

Camber: Micro Camber

Lengths: 154, 158

Description: Developed with Devun Walsh, this directional freestyle powder blade gets its -floaty ride from the combination of a MicroCamber profile and lightweight Carbon/Kevlar laminates.

Features: Sintered Base, Impact Core, Biax Laminate

Best in: all-mountain

DINOSAURS WILL DIE

Dinosaurs Will Die BOGART

Flex: 4/10

Manoeuvrability: 5/10

Camber: Flat camber

Lengths: 146,152

Description: Everyone's going to want a turn on this Flat Camber board, but you get to keep it all to yourself. No sharing.

Features: Poplar wood core, Sintered base, ABD sidewall

Best in: Freestyle, all-mountain

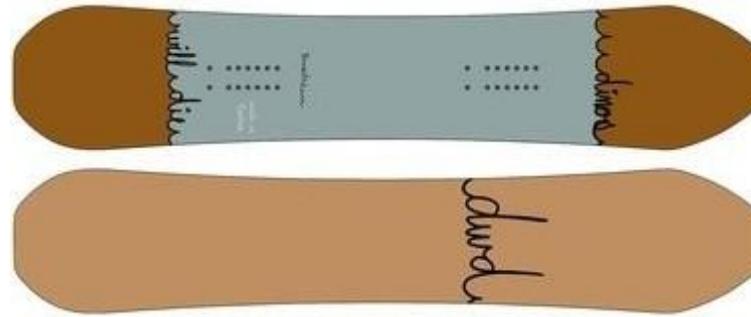

Dinosaurs Will Die BREWSTER

Flex: 4/10

Manoeuvrability: 7/10

Camber: Lowrider camber

Lengths: 157

Description: Brewster has been completely redesigned from tip to tail by Chris Brewster to fall in line with his natural instinct for big mountain riding and his passion for freestyle. With a directional freestyle shape and Dinos lowrider camber, the Brewster has all the pop you need with the added float and power to charge through powder and over groomers.

Features: Poplar wood core, Sintered base

Best in: Freestyle, all-mountain

Dinosaurs Will Die KWON

Flex: 6/10

Manoeuvrability: 7/10

Camber: Flat camber

Lengths: 155

Description: The Kwon has a poplar wood core is reinforced with a Carbon V, enhancing edge control and keeping the pop consistent throughout its life. It will handle anything from chowder, groomers, and fresh dumps

Features: Poplar wood core, Sintered base, ABS Sidewall

Best in: Freestyle, all-mountain

**Dinosaurs Will Die
MAET**

Flex: 3/10

Manoeuvrability: 5/10

Camber: Camber

Lengths: 155, 158

Description: The Maet is a mid-wide freestyle shred stick with a full camber profile that will rip lips and pop off hits like a thoroughbred velociraptor!

Features: Poplar wood core, Extruded base, ABS Sidewall

Best in: Freestyle, all-mountain

**Dinosaurs Will Die
THE RAT**

Flex: 4/10

Manoeuvrability: 5/10

Camber: Reverse camber

Lengths: 153

Description: With a reverse camber profile and a mid-soft flex, this one's buttery, forgiving, and an excellent choice for rail rats the world over

Features: Poplar wood core, Extruded base, Blunt tip shape

Best in: Freestyle

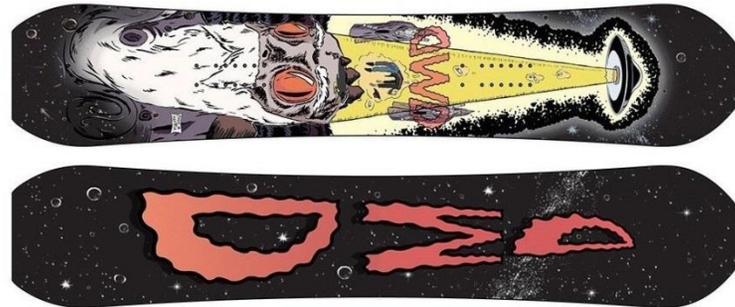

**Dinosaurs Will Die
WIZARD STICK**

Flex: 4/10

Manoeuvrability: 8/10

Camber: Camber

Lengths: 158

Description: the Wizardstick brings that trendy directional pointy shape that we've been seeing all over the shop to a board that you can take anywhere on the hill. Rail some proper carves, pop off some sidehits, the mid-soft flexing Wizardstick could very well be one of the most fun boards on the planet.

Features: Poplar wood core, Extruded base.

Best in: Freestyle, all-mountain

NEVER SUMMER

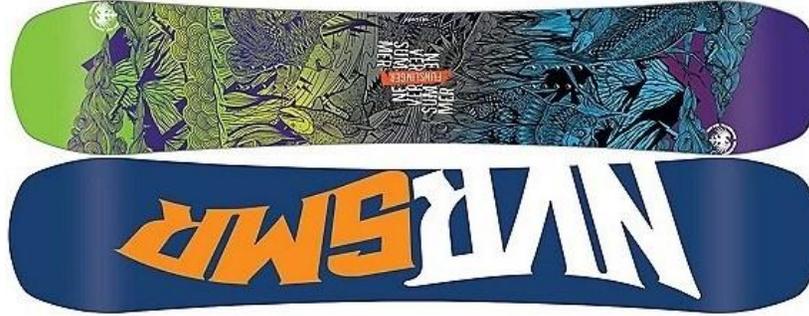

Never Summer FUNSLINGER

Flex: 3/10

Manoeuvrability: 4/10

Camber: Hybrid camber

Lengths: 153,156

Description: Never Summers Funslinger is one of the lightest Freestyle boards on the Market. A soft asymmetrical twin freestyle deck designed to dominate park, pipe and street Featuring Boost Flex Core and Ripsaw profile for pop and stability while retaining a forgiving flex.

Features: Carbonium topsheet, wood core, ptex sidewall, sintered base

Best in: Freestyle, all-mountain

Never Summer RIPSAW

Flex: 7/10

Manoeuvrability: 9/10

Camber: Hybrid camber

Lengths: 156,159

Description: Like nothing you've ever ridden before, it goes everywhere and shreds anything. The true twin Ripsaw CR provides superior edge hold, amazing playfulness, incredible float and gigantic pop ... especially when compared to traditional camber boards

Features: Carbonium topsheet, wood core, ptex sidewall, sintered base

Best in: Freestyle, all-mountain

Never Summer WARLOCK

Flex: 3/10

Manoeuvrability: 5/10

Camber: Hybrid camber

Lengths: 153,156

Description: This all -black matte topsheet board is laid up with carbon and a Press Flex Core in order to take on the mountain with a unique approach

Features: Carbonium topsheet, wood core, ptex sidewall, sintered base

Best in: Freestyle, all-mountain

NICHE

Niche

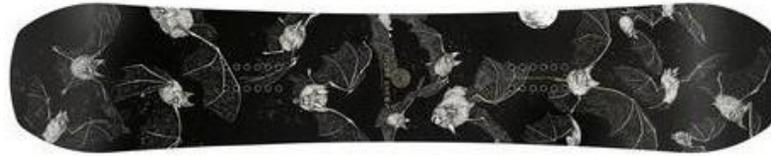

KNEW

Flex: 4/10

Manoeuvrability: 6/10

Camber: Flat camber, rocker tip and tail

Lengths: 155

Description: Bats are a symbol of joy and longevity, and we predict that the Knew will make you happy as a bat with it's fun flexing pressability and poppy wood core with flax stringers.

Features: Paulowina wood core, snappy sap bio resin, sintered base, 2x traction bumps.

Best in: Freestyle

Niche

THEME

Flex: 5/10

Manoeuvrability: 7/10

Camber: Camber dominant hybrid

Lengths: 155

Description: The Theme Snowboard can be your do-everything park and all-mountain board. There's nothing here that will hold you back, from the camber dominant profile for pop, to the basalt and bamboo stringers for lightness and stability at high speeds. This is also one of the only boards on the market that has a fully recyclable manufacturing story

Features: Paulowina wood core with bamboo stringers, Rerez resin, sintered base, 2x traction bumps

Best in: Freestyle, all-mountain

NITRO

Nitro BEAST

Flex: 8/10

Manoeuvrability: 10/10

Camber: Traditional camber

Lengths: 155

Description: Designed by some of the best park riders in the world. Acting as a collaborative pro model for Nitro Pro riders Eero Ettala, Sven Thorgren, Torgeir Bergrem, and the wonder kid Marcus Kleveland, the Beast is one board you're going to see a lot of. Jump on it for yourself and see why.

Features: Powercore II, tri-lite laminates, Sintered base, ballistic impact panels, Rail killer edge.

Best in: Freestyle, all-mountain

Nitro NUAT

Flex: 6/10

Manoeuvrability: 7/10

Camber: Cam out camber

Lengths: 163

Description: The NUAT (Non-Un-Asymmetrical-Twin) is one of the snappiest, surfiest rides you'll ever have the privilege of experiencing. With surf-inspired "wings" at the tip and tail, the Nuat can turn on a dime, navigate tight trees and rock gardens like a dream while the aggressive pintail shape lets you lay fatty slashes and throw up massive sprays.

Features: Powercore II, sintered base, progressive sidecut, Bi-lite laminates.

Best in: all-mountain

Nitro SQUASH

Flex: 6/10

Manoeuvrability: 7/10

Camber: True camber

Lengths: 159

Description: The Squash is a fully cambered, compact design meant to lock in and rail hard in any conditions. The angular short tip and long effective edge give you the power you're looking for when you want to generate some G-forces, while the truncated swallowtail lets the board float effectively in deep conditions.

Features: Powercore II, sintered base, progressive sidecut, Bi-lite laminates

Best in: all-mountain

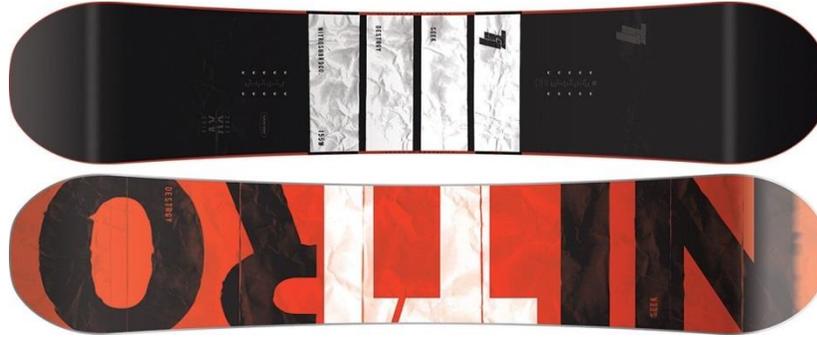

**Nitro
T1**

Flex: 3/10

Manoeuvrability: 7/10

Camber: True camber

Lengths: 155w, 158

Description: The team favourite true twin. The camber shape gives a versatile ride with control both in the park and all over the mountain. The flex is forgiving enough for anyone to enjoy and at high speeds stiffens up for a more aggressive response time.

Features: Powercore II, rail killer edge, sintered base, ballistic impact panels.

Best in: Freestyle, all-mountain

**Nitro
UBERSPOON**

Flex: 6/10

Manoeuvrability: 7/10

Camber: Roof chop camber

Lengths: 156, 162

Description: Originally it was designed as a powder board but really performs well in the park and all over the mountain. It's one of the most fun boards that Nitro has created and should be ridden everywhere. The longer pointed nose makes for better float in pow and easier nose and tail grabs when you want to get "XTREME!!!"

Features: Powercore II, tri-lite laminates, Sintered base.

Best in: All mountain twin

ROME

Rome

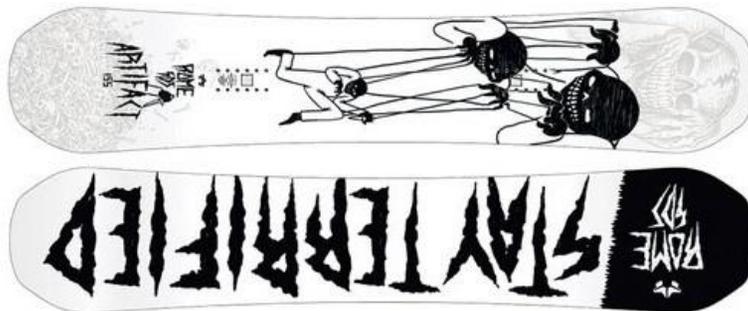

ARTIFACT

Flex: 3/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 152, 155

Description: The Artifact Snowboard and its distinctive nose and tail shape will let everyone know where you're coming from. Full camber for max pop, Rebound sidewalls for impact strength, and skatedeck technology for the feel you want, it's all there

Features: Stomp core, Hot rods, Extruded base, Rebound sidewall.

Best in: Freestyle

Rome

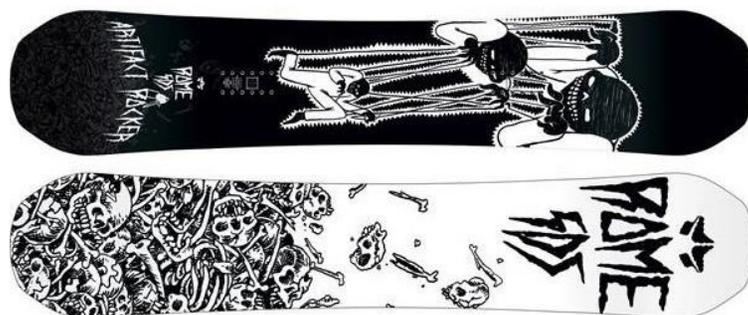

ARTIFACT ROCKER

Flex: 3/10

Manoeuvrability: 6/10

Camber: Hybrid camber

Lengths: 153

Description: Ollie it, press it, stomp it, ride it out like a baller on the Rome Artifact Rocker Snowboard. Crafted with freestyle -focused FreePop Rocker which places a flat section between the bindings for epic stability In the case of a surprise pow day, the Artifact can handle big drops and floats with ease due to its rockered nose and medium flex

Features: Stomp core, Hot rods, Extruded base, Rebound sidewall.

Best in: Freestyle

Rome

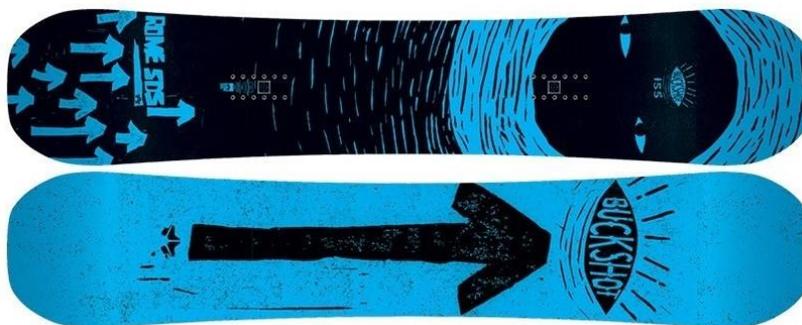

BUCKSHOT

Flex: 4/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 155

Description: The Buckshot Snowboard, with positive camber, bamboo reinforcement for added pop, and shock absorbing sidewalls, will help perfect that tight, fast style you've been striving to develop over the years.

Features: Pop core, rebound sidewall, sintered base, hot rods, straight biax laminate.

Best in: Freestyle

Rome
CROSSROCKET

Flex: 5/10
Manoeuvrability: 6/10
Camber: 3D camber
Lengths: 154

Description: The fun won't ever end on the Rome Crossrocket Snowboard. A NoHang -Ups Pop 2.0 rocker lessens your chances of catching and edge but keeps the powerful pop of camber for a balanced profile that floats powder, stabilizes landings, and provides all -mountain support.

Features: Super pop core, No hangups Pop, Sintered base.

Best in: Freestyle, all-mountain

Rome
FACTORY ROCKER

Flex: 3/10
Manoeuvrability: 7/10
Camber: Hybrid camber
Lengths: 155

Description: Designed to take over and transform your all -mountain riding skills by giving you the pop, precision and board control for tight turns and big airs. The rocker profile between your feet is so mellow it is practically flat, meaning extra stability

Features: pop core, Bambooster tech, Extruded base

Best in: Freestyle, all-mountain

Rome
National

Flex: 7/10
Manoeuvrability: 9/10
Camber: Camber
Lengths: 157

Description: For those of you who are happiest on a camber-dominant board, take a serious look at the Rome National Snowboard for your all-mountain freeride needs. All-terrain mastery stems from a lightweight, responsive SuperPop core combined with snappy 45 and 90 degree fiberglass and a carbon barrel down the middle for dampness, snap and power

Features: Super pop core, 45-90 carbon hybrid laminates, turbo rods, Sinterstrong sidewall, sinter base

Best in: All Mountain

Rome
REVERB ROCKER

Flex: 5/10
Manoeuvrability: 8/10
Camber: Hybrid camber
Lengths: 155

Description: Constructed with a mild flex, true twin shape for riding switch with no stance set back and a rocker, camber blended profile. This results in a board that feels just as fun riding natural terrain as it does on groomers.

Features: Super pop core, Hot rods, Sintered base.

Best in: Freestyle, all-mountain

SALOMON

Salomon
ASSASSIN

Flex: 5/10
Manoeuvrability: 7/10
Camber: Rock out camber
Lengths: 158

Description: This sneaky slayer has a do-it-all twin shape with Salomon's Rock Out camber, a blend of flat and positive camber that yields the benefits of both. Bamboo and aspen fill in a core that's milled to accentuate flex and pop when loading up turns and ollies. Cork slivers finish off the sidewalls for a smooth edge feel.

Features: Aspen core, cork sliver sidewall, sintered base

Best in: Freestyle

Salomon
ASSASSIN PRO

Flex: 7/10
Manoeuvrability: 8/10
Camber: Rock out camber
Lengths: 155

Description: With all the features the original Salomon Assassin houses, the Assassin Pro just ups the ante. Its Sintered Base requires more care than an extruded base would, but increases speed and takes your ride from semi to full blown professional

Features: Popster booster, Ghost green core, gunslinger sliver sidewall, sintered base

Best in: Freestyle

Salomon
HUCK KNIFE CLASSICKS

Flex: 6/10

Manoeuvrability: 8/10

Camber: Quad camber

Lengths: 155

Description: New for 2017 Salomon teamed up with legend Eric Dressen to bring you the Huck Knife Classicks, all the bells and whistles the Huck Knife was awarded best Park Board for, but beefed up and ready to rip. Upgrading to Gunslinger Sidewalls and an Area 51 base

Features: Aspen core, Gunslinger sidewall, Area 51 sintered base

Best in: Freestyle, all-mountain

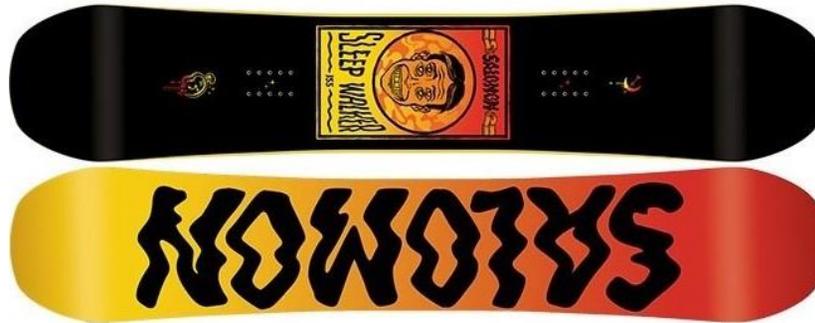

Salomon
SLEEPWALKER

Flex: 3/10

Manoeuvrability: 5/10

Camber: Rock out camber

Lengths: 153

Description: The Sleepwalker Snowboard helps those that are plagued with the problem of stumbling around in their sleep take pride in their nocturnal adventures. This board is park-friendly but all-mountain capable as well, allowing you to smoothly transition from one type of terrain to another

Features: Aspen strong core, ABS sidewall, Extruded base

Best in: Freestyle

Salomon
VILLAIN

Flex: 5/10

Manoeuvrability: 7/10

Camber: Rock out camber

Lengths: 155w

Description: The Villain is a freestyle board with real all-mountain capabilities. The Camber in the 'Rock Out Camber' profile provides pop and precision, while the mellow tip and tail rises make for effortless presses and improves the float in soft snow

Features: Aspen core, slingshot sidewall, sintered base

Best in: Freestyle, all-mountain

Salomon
ULTIMATE RIDE

Flex: 7/10

Manoeuvrability: 9/10

Camber: Rock out camber

Lengths: 158

Description: Living up to its title, the Ultimate Ride Snowboard is the quintessential board for the practicing snow wizards of the world. Its responsive flex provides a stable connection between board and rider, while the Quadralizer Sidecut gives complete control over turns and packing heat when it comes to speed.

Features: Green ghost core, gunslinger sidewall, Area 51 sintered base

Best in: Freestyle, all-mountain

STEPCHILD

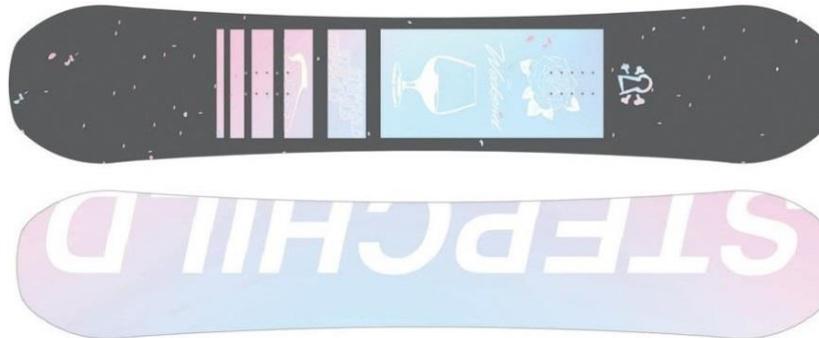

Stepchild
THE WEEKEND

Flex: 6/10

Manoeuvrability: 7/10

Camber: Hybrid

Lengths: 155, 157, 159

Description: the weekend set the bar for an all mountain board. The king of pop camber is flat between the feet with 2mm of regular camber out to the tips and touch of early rise in contact point, paired with a single carbon rod down the centre and 4 kevlar rods. This combination results in a very stable lively ride that holds an edge. Stop working and enjoy your weekend

Features: Poplar core, seamless urethane sidewall, structurn base

Best in: Freestyle

WOMEN'S SNOWBOARDS

BATALEON

Bataleon DISTORTIA

Flex: 3/10

Manoeuvrability: 6/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 146,149

Description: The sister of the men's Evil Twin board. Complete with an Extruded Base, a Pop Core, and Bi-Ax Laminate, this board is jam-packed with the works for an amazing ride that'll last.

Features: Jib Tech TBT (triple base technology)

Best in: Freestyle

Bataleon SHE W

Flex: 3/10

Manoeuvrability: 6/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 143

Description: The sister of the men's Global Warmer. With carbon stringers under the bindings, experience next-level performance with extreme pop, paired with Sintered Base technology which makes this thing really fly.

Features: Jib Tech TBT (triple base technology)

Best in: Freestyle

DC

DC BIDDY

Flex: 6/10

Manoeuvrability: 5/10

Camber: Anti camber

Lengths: 143,147,151

Description: The Biddy provides a different ride specifically designed for shooting up beginners to pro-status. Reducing edge catch with rocker, and a medium flex rating paired with the Bi-Ax laminate gives this board an excellent foundation for solidifying beginning moves and basic manoeuvres.

Features: Sintered Base, Impact Core, Quadrax Carbon Stringers

Best in: Freestyle, all-mountain

DC TELEGRAPH

Flex: 6/10

Manoeuvrability: 8/10

Camber: Positive camber

Lengths: 148

Description: The Telegraph's true -twin shape, moderate flex, and positive camber profile make it an excellent choice for freestyle oriented riders looking to add even more tricks to their bag.

Features: Sintered base, Stratus Core, Biaxial Glass.

Best in: Freestyle, all-mountain

DWD

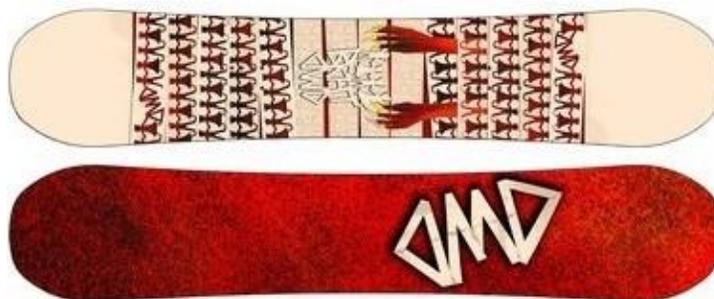

DWD BRAT

Flex: 4/10

Manoeuvrability: 5/10

Camber: Reverse Camber

Lengths: 143, 146

Description: Don't let looks deceive you.... it packs a punch! Adopting the lower profile reverse camber that we use on other boards in the line, the BRAT puts a beating on all terrain in its path.

Features: Poplar wood core, Extruded base, Blunt tip shape

Best in: Freestyle

NEVER SUMMER

Never Summer PROTOTYPE II

Flex: 6/10

Manoeuvrability: 8/10

Camber: Hybrid Camber

Lengths: 145, 151

Description: The women's Proto Type Two Snowboard is an asymmetrical snowboard and features a deeper sidecut on the heelside for easier turn initiation and a NS SuperLight Wood Core, so you don't have to fight to carve, it will have you arcing energized turns.

Features: Carbon Topsheet, super light wood core, ptx sidewall, sintered base

Best in: Freestyle, all-mountain

NICHE

Niche MINX

Flex: 4/10

Manoeuvrability: 8/10

Camber: Flat camber with rocker tip and tail

Lengths: 146

Description: While the flying squirrels on the top sheet of the Minx might look cute and fluffy, they actually represent the dangerous Japanese animal spirit Nodeppo. With a medium, pressable flex and lightweight, sustainable wood core with dynamic flax stringers, your riding will be as mischievous as the sneaky yokai.

Features: Paulownia Wood Core, flax stringer 2x traction bumps

Best in: Freestyle, all-mountain

NITRO

Nitro FATE

Flex: 5/10

Manoeuvrability: 7/10

Camber: Flat camber

Lengths: 144

Description: The Fate Snowboard, your search has come to an end. Featuring responsive Flat Camber and a Dual Degressive Sidecut, the Fate can arc turns top to bottom. Hop on the Nitro Fate Snowboard and shred the whole mountain with ease.

Features: Powercore II , extruded base

Best in: Freestyle, all-mountain

Nitro MERCY

Flex: 4/10

Manoeuvrability: 6/10

Camber: Hybrid camber

Lengths: 149

Description: The Mercy is the board of choice for Nitro team rider Silje Norendal, and is soon to be yours as well. With a progression-promoting flex and camber along with a super durable base and edges, the Mercy can handle jumps, rails, and all sorts of freestyle features while still performing all over the mountain.

Features: Powercore II , extruded base

Best in: Freestyle

Nitro MYSTIQUE

Flex: 5/10

Manoeuvrability: 7/10

Camber: Rock out camber

Lengths: 147

Description: The Nitro Mystique Snowboard is a board that you'll feel like you've been riding for years. Playful, catch-free and forgiving, the Mystique lets your spirit fly free and venture around the resort without the limitations of a terrain-specific board.

Features: Powercore II , extruded base

Best in: Freestyle, all-mountain

**Nitro
SWEETLEAF**

Flex: 6/10

Manoeuvrability: 7/10

Camber: Cam out Camber

Lengths: 146

Description: The Sweet Leafs all-mountain twin shape along with a bunch of smooth, floaty tech provide effortless float in powder and a surfy yet responsive feeling for groomers as well. One look at the nose and tail will make you think powder, but many riders are ditching that idea and using this board every day regardless of the conditions, and having a blast doing so

Features: Powercore II, Sintered base, tri-lite laminates

Best in: Freestyle, all-mountain

ROME

**Rome
HEIST**

Flex: 7/10

Manoeuvrability: 7/10

Camber: Hybrid camber

Lengths: 146, 150

Description: The Rome Heist is the perfect tool to help steal away bluebird days on the mountain. With rocker creating the smooth turn engagement along with the snap and stability of the camber, this board is perfect for all-mountain adventures by keeping you comfortable and in control when there is fresh powder or overrun chunder.

Features: straight biax laminate, wood core, hot rods, quick rip sidecut.

Best in: Freestyle, all-mountain

SALOMON

Salomon GYPSY

Flex: 4/10

Manoeuvrability: 7/10

Camber: Rock out camber

Lengths: 143, 147

Description: Created for all-mountain domination, the medium flex and Rock Out Camber gives this board great feel. Packed in with the Popster Booster, this board's ready to bounce off the snow and Royal Rubber Pads placed on high pressure zones of the sidewall will help absorb the impact while cutting down board chatter.

Features: Aspen core, sintered base, popster booster, triax fibre

Best in: Freestyle, all-mountain

Salomon GYPSY CLASSICKS

Flex: 4/10

Manoeuvrability: 7/10

Camber: Rock out camber

Lengths: 147

Description: Everything you love about the Gypsy but with extras. Now even faster with the Area 51 base and even more edge hold with the Gunslinger sidewalls. From parks, to booters and backcountry side hits. Watch out the Salomon Gypsy just got taken to a new level.

Features: Aspen core, area 51 sintered base, popster booster, triax fibre, gunslinger sidewall

Best in: Freestyle, all-mountain

Salomon OH YEAH

Flex: 4/10

Manoeuvrability: 5/10

Camber: Flat out rocker

Lengths: 138,147

Description: The Oh Yeah Snowboard for unrivalled and fearless approaches to jumps twice your size. The Aspen Strong and Popster Core will get you to new heights in the park, and the Freestyle edge bevel will keep the board carving.

Features: Aspen core, extruded base, popster booster, royal rubber pads

Best in: Freestyle

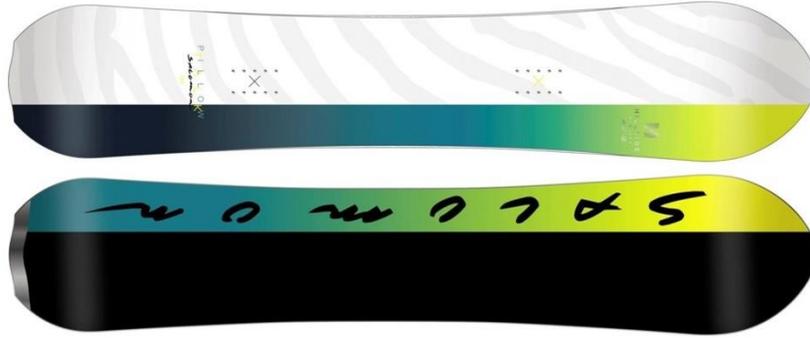

Salomon
PILLOW TALK

Flex: 4/10

Manoeuvrability: 7/10

Camber: Rock out Camber

Lengths: 145

Description: The Pillow Talk is tailored specifically for women and is the deep day weapon of choice for Annie Boulanger. The wider, tapered design allows for natural floatation and effortless maneuverability while the moderate flex gives you balanced performance whether you're bouncing down a pillow line or laying out carves on an open hill.

Features: Aspen core, sintered base, ABS sidewall, quadralizer sidecut.

Best in: all-mountain

STEPCHILD

Stepchild
THE PONY

Flex: 4/10

Manoeuvrability: 8/10

Camber: Hybrid camber

Lengths: 144,147

Description: The Pony benefits from reduced swing weight by utilizing a tapered nose and tail construction. A lightweight computer controlled poplar core delivers a soft, light and easy to maneuver board. The true twin shape delivers a versatile board that can tackle the entire mountain.

Features: Light kicker core, sintruded base, biaxial glass

Best in: Freestyle, all-mountain
