

16-17 HIGH PERFORMANCE RENTAL SNOWBOARDS

MEN'S SNOWBOARDS

BATALEON

Bataleon AIROBIC

Flex: 3/10

Manoeuvrability: 5/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 154

Description: The Airobic is a freestyle snowboard with a twin board shape. This board packs snappiness for giant ollies. It's response for smooth handling and great riding all over the mountain

Features: Freestyle TBT (triple base technology)

Best in: Freestyle

Bataleon DISASTER

Flex: 2/10

Manoeuvrability: 3/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 153

Description: A true twin in every sense with JIB TBT for stable board slides with great bend and super legit presses. The DISASTER is built around a TOUGHCORE to give it a soft flex without sacrificing strength.

Features: Jib Tech TBT (triple base technology)

Best in: Freestyle

Bataleon EVIL TWIN

Flex: 5/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 157

Description: Very poppy and super stable. A true twin shape with Jib Tech TBT, the EVIL TWIN is equally at home on big park kickers and backcountry booters. It also carves like a dream on groomers.

Features: Freestyle TBT (triple base technology)

Best in: Freestyle, all-mountain

Bataleon FUN.KINK

Flex: 3/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 157

Description: A true twin built around the softest version of Bataleon's CORE core. This gives it a very soft flex without sacrificing strength and makes the FUN.KINK one of the most forgiving and fun-to-ride men's boards

Features: Freestyle TBT (triple base technology)

Best in: Freestyle, all-mountain

Bataleon GLOBAL WARMER

Flex: 3/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 154

Description: Global Warmer is a park warrior. With carbon stringers under the bindings, experience next-level performance with extreme pop, paired with Sintered Base technology which makes this thing really fly.

Features: Freestyle TBT (triple base technology)

Best in: Freestyle, all-mountain, powder

Bataleon THE JAM

Flex: 4/10

Manoeuvrability: 8/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 156

Description: The Magic Carpet is a freestyle, pow floating machine so, they couldn't name it anything else, the Twin Pow 3BT providing a sturdy and responsive ride when riding over those freshies.

Features: Twin pow TBT (triple base technology)

Best in: Freestyle, all-mountain, powder

DC FOCUS

Flex: 3/10

Manoeuvrability: 5/10

Camber: Flat with rocker tip and tail

Lengths: 137,153

Description: The Focus features a true-twin shape and forgiving flex. With 3° bevel on the edges plus user-friendly anti-camber profile, this is a top choice for beginners and riders looking to step up their skills.

Features: Sintered Base, Impact Core, Quadrax Carbon Stringers

Best in: Freestyle, all-mountain

DC PLY

Flex: 6/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 153,156

Description: This is a team favourite. One of the more poppy and energetic boards in the DC line, it guarantees higher ollies and bigger slashes. The hybrid camber gives you all the benefits of the forgiving and playful reverse camber, but adds a snappy and responsive feel to the board.

Features: Sintered Base, Impact Core, Quadrax Carbon Stringers

Best in: Freestyle, all-mountain

DC SPACE ECHO

Flex: 7/10

Manoeuvrability: 8/10

Camber: Camber

Lengths: 158

Description: Laid up with a classic cambered profile using sturdy poplar, beech and triax fiberglass, DC has cooked up a powerful deck for attacking the entire mountain with power and velocity

Features: Sintered Base, Stratus Core, Triax laminates.

Best in: Freestyle, all-mountain

**DC
SUPERNATANT**

Flex: 8/10

Manoeuvrability: 8/10

Camber: Micro Camber

Lengths: 154

Description: Developed with Devun Walsh, this directional freestyle powder blade gets its floaty ride from the combination of a MicroCamber profile and lightweight Carbon/Kevlar laminates.

Features: Sintered Base, Impact Core, Biax Laminate

Best in: Freestyle, all-mountain

DINOSAURS WILL DIE

**Dinosaurs Will Die
BOGART**

Flex: 4/10

Manoeuvrability: 5/10

Camber: Flat camber

Lengths: 146 152

Description: Everyone's going to want a turn on this Flat Camber board, but you get to keep it all to yourself. No sharing.

Features: Poplar wood core, Sintered base, ABD sidewall

Best in: Freestyle, all-mountain

**Dinosaurs Will Die
GENOVESE**

Flex: 5/10

Manoeuvrability: 7/10

Camber: Flat camber

Lengths: 154

Description: Genovese is that go anywhere, do anything deck, featuring a solid tech-spec including sintered base, flat profile and mid flex.

Features: Poplar wood core, Sintered base, flat bank tips

Best in: Freestyle, all-mountain

Dinosaurs Will Die
KWON

Flex: 6/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 156

Description: The Kwon has a poplar wood core is reinforced with a Carbon V, enhancing edge control and keeping the pop consistent throughout its life. It will handle anything from chowder, groomers, and fresh dumps

Features: Poplar wood core, Sintered base, ABS Sidewall

Best in: Freestyle, all-mountain

Dinosaurs Will Die
LARSON

Flex: 5/10

Manoeuvrability: 7/10

Camber: Flat camber

Lengths: 155

Description: The Larson with its RePop profile is essentially a beefed up Rat snowboard with a fast sintered base and an extra helping of pop – perfect for the XL lane in the park or just a responsive all mountain ride.

Features: Poplar wood core, Sintered base, Blunt tip shape

Best in: Freestyle, all-mountain

Dinosaurs Will Die
MAET

Flex: 3/10

Manoeuvrability: 5/10

Camber: Camber

Lengths: 158

Description: The Maet is a mid-wide freestyle shred stick with a full camber profile that will rip lips and pop off hits like a thoroughbred velociraptor!

Features: Poplar wood core, Extruded base, ABS Sidewall

Best in: Freestyle, all-mountain

Dinosaurs Will Die
RAT

Flex: 4/10

Manoeuvrability: 5/10

Camber: Reverse camber

Lengths: 153

Description: With a reverse camber profile and a mid soft flex, this one's buttery, forgiving, and an excellent choice for rail rats the world over.

Features: Poplar wood core, Extruded base, Blunt tip shape

Best in: Freestyle, all-mountain

Dinosaurs Will Die WIZARD STICK

Flex: 4/10

Manoeuvrability: 8/10

Camber: Hybrid camber

Lengths: 158

Description: the Wizardstick brings that trendy directional pointy shape that we've been seeing all over the shop to a board that you can take anywhere on the hill. Rail some proper curves, pop off some sidehits, the mid-soft flexing Wizardstick could very well be one of the most fun boards on the planet.

Features: Poplar wood core, Extruded base.

Best in: Freestyle, all-mountain

NEVER SUMMER

Never Summer 25

Flex: 5/10

Manoeuvrability: 7/10

Camber: Hybrid camber

Lengths: 160

Description: This directional freeride beast offers deep pow capabilities without sacrificing hardpack performance. Dive in the deep, pilfer the secret stashes, and still arc on the way back to the lift.

Features: Carbon topsheet, wood core, ptx sidewall, sintered base

Best in: All-mountain

Never Summer FUNSLINGER

Flex: 3/10

Manoeuvrability: 4/10

Camber: Hybrid camber

Lengths: 156

Description: Never Summers Funslinger is one of the lightest Freestyle boards on the Market. A soft asymmetrical twin freestyle deck designed to dominate park, pipe and street Featuring Boost Flex Core and Ripsaw profile for pop and stability while retaining a forgiving flex.

Features: Carbonium topsheet, wood core, ptx sidewall, sintered base

Best in: Freestyle, all-mountain

Never Summer PROTOTYPE II

Flex: 5/10

Manoeuvrability: 6/10

Camber: Hybrid camber

Lengths: 154 158X

Description: Play, press, bounce, and arc with confidence knowing that the Proto-Type will offer the response and lively feel you've always dreamed of having underneath your feet.

Features: Carbon topsheet, wood core, ptex sidewall, sintered base

Best in: Freestyle, all-mountain

Never Summer RIPSAW

Flex: 7/10

Manoeuvrability: 9/10

Camber: Hybrid camber

Lengths: 156,159

Description: Like nothing you've ever ridden before, it goes everywhere and shreds anything. The true twin Ripsaw CR provides superior edge hold, amazing playfulness, incredible float and gigantic pop ... especially when compared to traditional camber boards

Features: Carbonium topsheet, wood core, ptex sidewall, sintered base

Best in: Freestyle, all-mountain

Never Summer WARLOCK

Flex: 3/10

Manoeuvrability: 5/10

Camber: Hybrid camber

Lengths: 154 156X

Description: This all-black matte topsheet board is laid up with carbon and a Press Flex Core in order to take on the mountain with a unique approach

Features: Carbon topsheet, wood core, ptex sidewall, sintered base

Best in: Freestyle, all-mountain

NITRO

Nitro BRYAN FOX

Flex: 5/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 158

Description: With a mid-wide width, directional shape, and the classic feel of a radial sidecut this is your everyday freestyle stick.

Features: Powercore, sintered base, Bi laminate topsheet.

Best in: Freestyle, all-mountain

Nitro ELIAS ELHARDT

Flex: 6/10

Manoeuvrability: 7/10

Camber: Roof chop camber

Lengths: 159

Description: Originally it was designed as a powder board but really performs well in the park and all over the mountain. It's one of the most fun boards that Nitro has created and should be ridden everywhere. The longer pointed nose makes for better float in pow and easier nose and tail grabs when you want to get "XTREME!!!"

Features: Powercore, tri-lite laminates, Sintered base, ballistic impact panels.

Best in: All mountain twin

Nitro GLORY STOMPER

Flex: 6/10

Manoeuvrability: 7/10

Camber: Flat camber

Lengths: 156

Description: Urban flex and Mid-Wide width, this board turns a grind into a completely new experience. Go ahead and hit that 10 ft. drop, the board is packed with technology such as the Ballistic Impact Panel which means the same stuff that's in bulletproof vests protecting the core of your board. Paired with the RailKiller Edge, this board is quite nearly indestructible

Features: Powercore, rail killer edge, sintered base, ballistic impact panels.

Best in: Freestyle, all-mountain

Nitro SMP

Flex: 4/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 155

Description: The SMP has a directional shape and a radial sidecut that blends an old school feel with unrestricted all-mountain capability.

Features: Powercore, extruded base, bi laminate topsheet.

Best in: Freestyle, all-mountain

Nitro T1

Flex: 5/10

Manoeuvrability: 7/10

Camber: Flat camber

Lengths: 153, 155, 156w

Description: The team favourite true twin. The new zero camber shape gives a versatile ride with control both in the park and all over the mountain. The flex is forgiving enough for anyone to enjoy and at high speeds stiffens up for a more aggressive response time.

Features: Powercore, rail killer edge, sintered base, bi-lite laminates

Best in: Freestyle

ROME

Rome ARTIFACT

Flex: 3/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 155

Description: The Artifact Snowboard and its distinctive nose and tail shape will let everyone know where you're coming from. Full camber for max pop, Rebound sidewalls for impact strength, and skatedeck technology for the feel you want, it's all there

Features: Stomp core, Hot rods, Extruded base, Rebound sidewall..

Best in: Freestyle, all-mountain

Rome
ARTIFACT ROCKER

Flex: 3/10

Manoeuvrability: 6/10

Camber: Flat Camber

Lengths: 156

Description: Ollie it, press it, stomp it, ride it out like a baller on the Rome Artifact Rocker Snowboard. Crafted with freestyle-focused FreePop Rocker which places a flat section between the bindings for epic stability. In the case of a surprise pow day, the Artifact can handle big drops and floats with ease due to its rockered nose and medium flex.

Features: Stomp core, Hot rods, Extruded base, Rebound sidewall.

Best in: Freestyle, all-mountain

Rome
CROSSROCKET

Flex: 5/10

Manoeuvrability: 6/10

Camber: 3D camber

Lengths: 158w,156

Description: The fun won't ever end on the Rome Crossrocket Snowboard. A NoHang-Ups Pop 2.0 rocker lessens your chances of catching and edge but keeps the powerful pop of camber for a balanced profile that floats powder, stabilizes landings, and provides all-mountain support.

Features: Super pop core, No hangups Pop, Sintered base.

Best in: Freestyle, all-mountain

Rome
FACTORY ROCKER

Flex: 3/10

Manoeuvrability: 7/10

Camber: Hybrid camber

Lengths: 158

Description: Designed to take over and transform your all-mountain riding skills by giving you the pop, precision and board control for tight turns and big airs. The rocker profile between your feet is so mellow it is practically flat, meaning extra stability.

Features: pop core, Bambooster tech, Extruded base

Best in: Freestyle, all-mountain

Rome
REVERB ROCKER

Flex: 5/10

Manoeuvrability: 8/10

Camber: Hybrid camber

Lengths: 157

Description: Constructed with a mild flex, true twin shape for riding switch with no stance set back and a rocker, camber blended profile. This results in a board that feels just as fun riding natural terrain as it does on groomers.

Features: Super pop core, Hot rods, Sintered base.

Best in: Freestyle, all-mountain

SALOMON

Salomon
ASSASSIN

Flex: 5/10

Manoeuvrability: 7/10

Camber: Rock out camber

Lengths: 155, 157w

Description: This sneaky slayer has a do-it-all twin shape with Salomon's Rock Out camber, a blend of flat and positive camber that yields the benefits of both. Bamboo and aspen fill in a core that's milled to accentuate flex and pop when loading up turns and ollies. Cork slivers finish off the sidewalls for a smooth edge feel.

Features: Aspen core, cork sliver sidewall, sintered base

Best in: Freestyle

Salomon
DERBY

Flex: 6/10

Manoeuvrability: 7/10

Camber: Camber

Lengths: 151

Description: The Derby is one sick puppy. Featuring Rocket Science, a shorter and wider shape for turning on a dime, Pow Rocker for flotation on deep days

Features: Aspen core, Biax glass, slix base

Best in: Freestyle, all-mountain

**Salomon
HUCK KNIFE**

Flex: 6/10

Manoeuvrability: 8/10

Camber: Quad camber

Lengths: 158

Description: The Huck Knife delivers a mix of precision, response and forgiveness in a symmetrical flex, true twin package. Blast off cat tracks with the best of 'em.

Features: Aspen core, slingshot sidewall, sintered base

Best in: Freestyle, all-mountain

**Salomon
SUPER 8**

Flex: 4/10

Manoeuvrability: 8/10

Camber: Back seat camber

Lengths: 154, 163

Description: Super8 Snowboard is a directional deck that'll carve trenches on the hardpack one run, then float effortlessly through powder on the next. The Super8's unique directional, tapered shape paired with the Back Seat Camber profile give this board a super fun, pre-loaded feel that's driven easily by your back foot.

Features: Aspen core, Royal rubber sidewall, sintered base

Best in: Freestyle, all-mountain

**Salomon
VILLAIN**

Flex: 4/10

Manoeuvrability: 7/10

Camber: Rock out camber

Lengths: 158

Description: The Villain is a freestyle board with real all-mountain capabilities. The Camber in the 'Rock Out Camber' profile provides pop and precision, while the mellow tip and tail rises make for effortless presses and improves the float in soft snow

Features: Aspen core, cork sliver sidewall, sintered base

Best in: Freestyle

STEPCHILD

Stepchild DIRTBAG

Flex: 4/10

Manoeuvrability: 7/10

Camber: Flat camber

Lengths: 150,157

Description: Bringing Asymmetric technology into a shape that look pretty much normal!

The new ASYM shape has a tighter radius on the toe edge than heel edge this means that it works with the different pressures from the bindings aiding turning.

Features: Biaxial glass, asymmetric, extruded base

Best in: Freestyle

Stepchild LATCHKEY

Flex: 6/10-4/10

Manoeuvrability: 7/10 – 5/10

Camber: Camber

Lengths: 154

Description: Tip to tail full wood core and 2 Kevlar stringers give the Latchkey a more stable and chatter free ride, and increasing ollie power. This classic combination continues to win awards, and can handle any terrain you can toss at it. Available in camber or reverse camber.

Features: Biaxial glass, Kevlar stringers, extruded base

Best in: Freestyle, all-mountain

Stepchild MAI THAI

Flex: 4/10

Manoeuvrability: 6/10

Camber: Micro camber

Lengths: 152,155

Description: The Stepchild Mai Tai is a twin shaped, micro camber soft and fun. It feature Micro Camber – The small amount of camber is made to give you the feel of a broken in camber board, but still giving you pop and stability. Kicker Core...

Features: Biaxial glass, extruded base

Best in: Freestyle

Stepchild OG POW

Flex: 5/10

Manoeuvrability: 7/10

Camber: Flat Camber

Lengths: 161

Description: This is a powder specific flat cambered board with a tapered directional tail & a larger nose for extra float & quick responsive tuning in between tight trees in the deepest of snow. A super fast sintered base with a biax topsheet for a medium flex, this board is a true all mountain charger.

Features: Kicker FSC core, sintruded base, Biaxial glass.

Best in: Freestyle

Stepchild STEREOTYPE

Flex: 4/10

Manoeuvrability: 6/10

Camber: Reverse Camber

Lengths: 154,157

Description: The Stereotype is freestyle, soft-to-mid flex board, built for increasing your trick repertoire. It is equally impressive across the whole mountain.

Features: Biaxial glass, sintruded base

Best in: Freestyle

Stepchild SUCKS

Flex: 5/10

Manoeuvrability: 7/10

Camber: Hybrid Camber

Lengths: 154,157

Description: King of Pop Hybrid Camber reacts with power like a camber board when loaded on firm snow, and when in powder the small section of reverse between the feet gives effortless float. Perfect for all terrain and snow conditions

Features: Biaxial glass, sintruded base

Best in: Freestyle

WOMEN'S SNOWBOARDS

BATALEON

Bataleon DISTORTIA

Flex: 3/10

Manoeuvrability: 6/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 146,149

Description: The sister of the men's Evil Twin board. Complete with an Extruded Base, a Pop Core, and Bi-Ax Laminate, this board is jam-packed with the works for an amazing ride that'll last.

Features: Jib Tech TBT (triple base technology)

Best in: Freestyle

Bataleon SHE W

Flex: 3/10

Manoeuvrability: 6/10

Camber: Rocker on the sides,
camber in the middle

Lengths: 146

Description: The sister of the men's Global Warmer. With carbon stringers under the bindings, experience next-level performance with extreme pop, paired with Sintered Base technology which makes this thing really fly.

Features: Jib Tech TBT (triple base technology)

Best in: Freestyle

DC

DC BIDDY

Flex: 6/10

Manoeuvrability: 5/10

Camber: Anti camber

Lengths: 143,147,151

Description: The Biddy provides a different ride specifically designed for shooting up beginners to pro-status. Reducing edge catch with rocker, and a medium flex rating paired with the Bi-Ax laminate gives this board an excellent foundation for solidifying beginning moves and basic manoeuvres.

Features: Extruded Base, Impact Core

Best in: Freestyle, all-mountain

DC PLY

Flex: 5/10

Manoeuvrability: 6/10

Camber: Positive camber

Lengths: 146,150,153

Description: The Ply is a super responsive and poppy board with a much softer and forgiving nose and tail. When you want to ride fast and get aggressive, this board responds beautifully. At the same time, the softer nose and tail absorb a lot of the energy to create a super smooth feel.

Features: Extruded base, Impact Core

Best in: Freestyle, all-mountain

DC TELEGRAPH

Flex: 6/10

Manoeuvrability: 8/10

Camber: Positive camber

Lengths: 144

Description: The Telegraph's true-twin shape, moderate flex, and positive camber profile make it an excellent choice for freestyle oriented riders looking to add even more tricks to their bag.

Features: Sintered base, Stratus Core, Biaxial Glass.

Best in: Freestyle, all-mountain

DINOSAURS WILL DIE

Dinosaurs Will Die BOGART

Flex: 4/10

Manoeuvrability: 5/10

Camber: Flat camber

Lengths: 146 152

Description: Everyone's going to want a turn on this Flat Camber board, but you get to keep it all to yourself. No sharing.

Features: Poplar wood core, Sintered base, ABD sidewall

Best in: Freestyle, all-mountain

**Dinosaurs Will Die
BRAT**

Flex: 4/10

Manoeuvrability: 5/10

Camber: Reverse camber

Lengths: 146

Description: Don't let looks deceive you.... it packs a punch! Adopting the lower profile reverse camber that we use on other boards in the line, the BRAT puts a beating on all terrain in its path.

Features: Poplar wood core, Extruded base, Blunt tip shape

Best in: Freestyle, all-mountain

NEVER SUMMER

**Never Summer
INFINITY**

Flex: 4/10

Manoeuvrability: 7/10

Camber: Hybrid camber

Lengths: 142,142,151

Description: The Infinity is the go-anywhere, do-anything, all-terrain deck that handles hardpack, powder, natural features and park for the ladies. With Never Summer's camber/rocker/camber profile, the Infinity has the perfect balance of floaty, easy-going style with precision response.

Features: Carbon topsheet, wood core, ptx sidewall, sintered base

Best in: Freestyle, all-mountain

**Never Summer
ONYX**

Flex: 3/10

Manoeuvrability: 5/10

Camber: Hybrid camber

Lengths: 140,146

Description: A true twin, blunted, low profile, light weight, landing, stomping, spinning machine built for the hard-core female park rider. It's a buttery and playful ride that will also put down a carve when called upon.

Features: Carbon Topsheet, wood core, ptx sidewall, sintered base

Best in: Freestyle

**Never Summer
PROTOTYPE II**

Flex: 6/10

Manoeuvrability: 8/10

Camber: Hybrid camber

Lengths: 145,151

Description: The women's Proto Type Two Snowboard is an asymmetrical snowboard and features a deeper sidecut on the heelside for easier turn initiation and a NS SuperLight Wood Core, so you don't have to fight to carve, it will have you arcing energized turns

Features: Carbon Topsheet, super light wood core, ptex sidewall, sintered base

Best in: Freestyle

NITRO

**Nitro
FATE**

Flex: 5/10

Manoeuvrability: 7/10

Camber: Flatcamber

Lengths: 147

Description: The Fate Snowboard, your search has come to an end. Featuring responsive Flat Camber and a Dual Degressive Sidecut, the Fate can arc turns top to bottom. Hop on the Nitro Fate Snowboard and shred the whole mountain with ease.

Features: Powercore II , extruded base.

Best in: Freestyle, all-mountain

**Nitro
MYSTIQUE**

Flex: 5/10

Manoeuvrability: 7/10

Camber: Hybrid camber

Lengths: 149

Description: the Nitro Mystique Snowboard is a board that you'll feel like you've been riding for years. Playful, catch-free and forgiving, the Mystique lets your spirit fly free and venture around the resort without the limitations of a terrain-specific board.

Features: Powercore II , extruded base.

Best in: Freestyle, all-mountain
