

2025-26 HIGH PERFORMANCE SKI RANGE

Models and Sizes subject to change and availability.

Men's Skis

Armada

ARV 94

Park-ready, but equally at home in a foot of pow or dropping a steep chute, the Armada ARV 94 Skis are ready to master whatever you throw at them. Armada's proven freestyle/freeride fusion design is at its finest in this mid-fat 94mm width.

Season: 2025/26 & 2024/25

Sizes: 164, 171, 178, 185

Ability: Intermediate-Advanced

Best In: Park & Pipe, All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Wood

Dimensions: 122-94-116 R16 @164

Tail: Full Twin Tip

Men's Skis

Armada

ARV 100

Bring your "A" park game up to the top of the mountain, and let the world know what you've been working on with the Armada ARV 100 Skis. This mid-wide version of the legendary ARV is the one to take out the door when the conditions are mixed (or unknown) - the 100mm profile won't let you have a bad time regardless. Born to be a winner with a Poplar wood core, Ash binding insert for added pullout strength, sturdy 2.5mm Impact Edges and Armada W3dgewall construction.

Season: 2025/26 & 2024/25

Sizes: 165, 172, 179, 186

Ability: Intermediate-Advanced

Best In: Park & Pipe, All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Wood

Dimensions: 125-100-118 R17 @165

Tail: Full Twin Tip

Men's Skis

Armada

ARV 106

Even in the super snowy parts of North America, the really fat powder skis don't see all that many days. It's the mid-fat, like the Armada ARV 106 Skis, that get the call most of the time. For a freestyle-oriented big mountain rider, there aren't many better choices, since Armada is one of the few companies that focuses on the 'free' part of the description rather than catering to ex-racer types.

Season: 2025/26 & 2024/25

Sizes: 164, 172, 180, 188

Ability: Intermediate-Advanced

Best In: All Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Wood

Dimensions: 132-106-125 R17 @164

Tail: Partial Twin Tip

Men's Skis

Armada

Bdog

A mid-fat ski with super soft flex, the Armada BDOG 94 Skis are the choice of Phil Casabon and pretty much every park and urban crew worldwide. Wide enough to serve as an all-mountain ride or even do service on a pow day, the BDOG 94 lets you take your tricks everywhere on the mountain. Pass the butter, please.

Season: 2025/26 & 2024/25

Sizes: 164, 172, 180

Ability: Advanced-Expert

Best In: Park & Pipe

Profile: Rocker/Camber/Rocker

Radius: Short

Core: Wood

Dimensions: 121-94-116.5 @ 164

Tail: Full Twin Tip

Men's Skis

Atomic

Bent Chetler 90

The Atomic Bent 90 Skis certainly look rad and love to take their park laps, but plenty of buyers have found they're actually a ton of fun as an all-mountain ride that can hang with the best and look even better. Featuring HRZN Tech tips and tails and a Light Woodcore with Dura Cap "half cap" construction, the Bent 90 is a ride you can be proud to own and stoked to get out on.

Season: 2025/26 & 2024/25

Sizes: 157, 166, 175, 184

Ability: Intermediate-Advanced

Best In: Park & Pipe, All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Wood

Dimensions: 118-90-109 R17 @166

Tail: Partial Twin Tip

Men's Skis

Atomic

Bent Chetler 100

The Atomic Bent 100 Skis turn twintip skeptics into believers with a combination of playful riding and serious all-mountain chops. Their eco-friendly build includes a versatile 100mm waist width, a snappy poplar wood core, and HRZN 3D tips for a nimble, maneuverable in soft snow. From pow turns to groomer laps to side-hit sessions, they're the perfect all rounders for all mountain ripping.

Season: 2025/26 & 2024/25

Sizes: 158, 165, 172, 179, 186

Ability: Intermediate-Advanced

Best In: All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Wood

Dimensions: 126-100-116.5 R17 @165

Tail: Partial Twin Tip

Men's Skis

Atomic

Bent Chetler 100

The Atomic Bent Chetler 100 Skis are light, nimble, and simply a gas to ski. When it's not a pow day but you don't really know what to expect, this is the ski that most Atomic pros reach for as they head out the door - you could do worse.

Season: 2023/24

Sizes: 164, 172, 180, 188

Ability: Intermediate-Advanced

Best In: All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Wood

Dimensions: 128.5-100-119 R18 @172

Tail: Partial Twin Tip

Men's Skis

Atomic

Bent Chetler 110

The goldilocks of the Bent family, the Atomic Bent 110 Skis bridge the gap between deep-day float and every-day capability with uncanny precision. Their lightweight construction, snappy poplar wood core, and HRZN 3D tips create a nimble powerhouse that's equally happy charging through resort chop or floating through pristine backcountry pow. With a highly versatile 110mm waist, these puppies prove that sometimes the sweet spot sits right in the middle.

Season: 2025/26 & 2024/25

Sizes: 164, 172, 180, 188

Ability: Advanced-Expert

Best In: All-Mountain, Big Mountain, Alpine

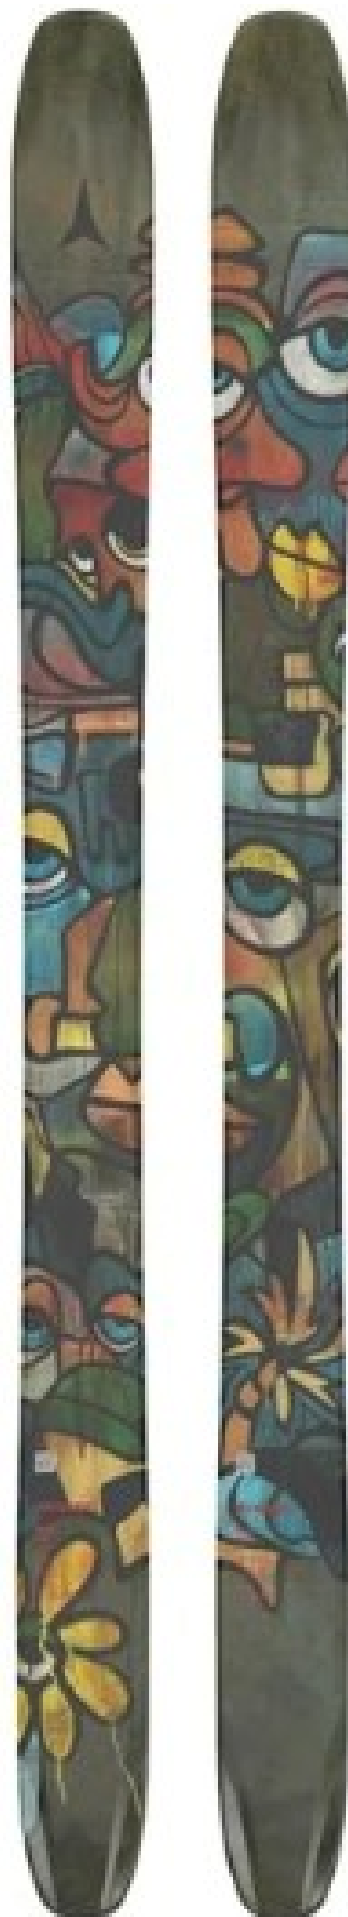

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Carbon, Wood

Dimensions: 133-110-124 R18 @180

Tail: Full Twin Tip

Men's Skis

Atomic

Maverick 88Ti

Atomic realized a few years ago that "all-mountain" skiing meant something different in North America. Skiers wanted not only strong edgehold and confidence on-piste, but the ability to bust out some moves past the backcountry gate or in the trees should the day warrant it - and the Atomic Maverick 88 Ti Skis was one of the stars of the testing sessions.

Season: 2024/25

Sizes: 161, 169, 176, 184

Ability: Intermediate-Advanced

Best In: All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Carbon, Metal, Wood

Dimensions: 124.5-88-109.5 R18.2 @176

Tail: Flat

Men's Skis

Blizzard

Anomaly 88

The Blizzard Anomaly 88 Skis were on the feet of plenty of evo employees this season, and to a skier they drew rave reviews. Not exactly a replacement for the revered Brahma, the Anomaly 88 is probably 95% as stable at the top end but adds maneuverability and manners at more moderate speeds and tight quarters, something that adds value when you're sketched in challenging terrain or simply skiing at moderate speeds. Any day when you can't sink more than 2 or 3 inches, the Anomaly 88 with a bit more tip rocker than other 88mm frontside ski will crush it without complaint.

Season: 2025/26

Sizes: 164, 170, 146, 182

Ability: Intermediate-Advanced

Best In: All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Metal, Wood

Dimensions: 126.5-88-108.5 R14 @ 164

Tail: Partial Twin Tip

Men's Skis

Blizzard

Rustler 9

The Blizzard Rustler 9 Skis crush it in so many conditions we hesitate to think of a better all-rounder in the industry. Very crisp and precise for a rocker-camber-rocker design on firm snow, very nimble in bumps and tight spaces, and more than decent in fresh snow, the Rustler 9 is the daily driver of choice for just about anyone who doesn't limit themselves strictly to groomed terrain.

Season: 2025/26 & 2024/25

Sizes: 162, 168, 174, 180

Ability: Intermediate-Advanced

Best In: All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Metal, Wood

Dimensions: 131.5-96-121 R17 @180

Tail: Partial Twin tip

Men's Skis

Blizzard

Rustler 10

This ski gets the call on most days, even among evo shop employees with huge quivers. The Blizzard Rustler 10 Skis excel in anything less than a foot and a half of powder, make a lot of frontside skis feel sloppy on the groomed, and ski great switch. The 102mm waist width (104mm in 186 and 192) treads the line between "all-mountain" and "powder" but handles both with ease. Unchanged from 2025 save for graphics.

Season: 2025/26 & 2024/25

Sizes: 162, 168, 174, 180, 186

Ability: Intermediate-Advanced

Best In: All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Metal, Wood

Dimensions: 134-102-123 R17.5 @180

Tail: Partial Twin tip

Men's Skis

Elan

Ripstick 88

Frontside stalwarts the Elan Ripstick 88 Skis get some updates, starting with more sizes (the break is now 7cm rather than 8cm), a revised sidecut meant to enhance stability at speed, and extra Unidirectional Carbon and Flax Fiber in the layup. The new skis are indeed calmer and more composed at speed, but without sacrificing Elan's trademark effortless turn initiation. If you're seeking a frontside carving machine that doesn't exhaust your legs before noon, the new Ripstick 88 might just be the ticket.

Season: 2025/26 & 2024/25

Sizes: 161, 168, 175, 182

Ability: Intermediate-Advanced

Best In: All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Short

Core: Carbon, Flax, Wood

Dimensions: 130-90-108 R14.8 @168

Tail: Flat

Men's Skis

Elan

Ripstick 96

Take a proven winner and make it even smoother and more confident on chattery, hard snow and you've got the Elan Ripstick 96 Skis. Keeping the Amphibio profile, TubeLite Core and Carbon Rods that made the previous version a success and adding UD Carbon and Flax Fiber makes this great ski that much better.

Season: 2025/26 & 2024/25

Sizes: 168, 175, 182, 189

Ability: Intermediate-Advanced

Best In: All Mountain

Profile: Rocker/Camber/Rocker

Radius: Short

Core: Carbon, Flax, Wood

Dimensions: 133-96-114 R15.8 @168

Tail: Flat

Men's Skis

Elan

Wingman 83 Ti

The Elan Wingman 83 Ti Skis are the sleek, high-performance choice for skiers who live for carving trenches and gripping hardpack like a pro. With a slimmer waist and Titanal reinforcement, these skis are lightning-quick edge to edge and deliver rock-solid stability at speed. Built for strong, confident riders who prioritize precision and control, the Wingman 83 Ti is your go-to wingman for slicing groomers and owning the frontside.

Season: 2025/26

Sizes: 160, 168, 174, 182

Ability: Advanced-Expert

Best In: Carving, All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Metal, Wood

Dimensions: 131-83-112 R12 @ 152

Tail: Partial Twin Tip

Men's Skis

Elan

Wingman 86 Black Edition

The Elan Wingman 86 Black Edition Skis are your ultimate frontside companion—blending power, precision, and a touch of sophistication. Loaded with both carbon and Titanal, these skis deliver high-octane performance with silky-smooth stability, making them perfect for confident skiers who love to carve with authority. Sleek, strong, and seriously capable, the Black Edition is where trusted tech meets refined style for a ride that's as bold as it is beautiful.

Season: 2025/26

Sizes: 168, 174, 182

Ability: Advanced-Expert

Best In: Carving, All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Carbon, Metal, Wood

Dimensions: 132-86-112 R14 @ 160

Tail: Partial Twin Tip

Men's Skis

Elan

Wingman 86Ti

The perfect combination of performance and ease, Wingman 86 Ti offers a smooth ride in all conditions thanks to its robust footprint and construction.

Season: 2024/25

Sizes: 160, 166, 172, 178

Ability: Advanced-Expert

Best In: Carving, All-Mountain

Profile: Rocker/Camber/Rocker

Radius: Short

Core: Metal, Wood

Dimensions: 129-86-114 R15.6 @172

Tail: Flat

Men's Skis

Head

Kore 88 Ti

The HEAD Kore 88 Ti delivers exceptional all-mountain versatility with its lightweight Karuba wood core, titanal layer construction, and graphene-reinforced topsheet, offering precise edge control and stability for advanced skiers who demand high performance across varied terrain and snow conditions.

Season: 2025/26

Sizes: 163, 170, 177, 184

Ability: Intermediate-Advanced

Best In: All Mountain

Profile: Rocker/Camber/Rocker

Radius: Short

Core: Flax, Graphene, PET, Wood

Dimensions: 128-88-112 R16 @ 177

Tail: Partial Twin Tip

Men's Skis

Head

Kore 94 Ti

The classic Head Kore 94 Ti Skis gain a little weight and a ton of power with the addition of two sheets of Titanal in the layup, and skiers who push the limit everywhere on the mountain will feel and appreciate the difference. Head's Freeride Sandwich Cap Construction features a Karuba and Beech wood core, "Mini Cap" construction with cap over sidewalls, and the distinctive precision the Kore skis have always been known for with a bit more guts.

Season: 2025/26

Sizes: 163, 170, 177, 184

Ability: Intermediate-Advanced

Best In: All Mountain

Profile: Rocker/Camber/Rocker

Radius: Short

Core: Flax, Graphene, PET, Wood

Dimensions: 131-94-116 R16.3 @ 177

Tail: Partial Twin Tip

Men's Skis

Head

Kore 100 Ti

This Swiss Army Knife of the Kore Series (well, Austrian, actually) gets a new-found sense of power and confidence with the addition of two layers of Titanal to the proven Head geometry. Starting with a Karuba and Beech wood core and adding metal, graphene and flax along with full length capped sidewalls lets the Head Kore 100 Ti Skis do it all with more authority than ever before.

Season: 2025/26

Sizes: 163, 170, 177, 184

Ability: Intermediate-Advanced

Best In: All-Mountain, Big Mountain

Profile: Rocker/Camber/Rocker

Radius: Medium

Core: Flax, Graphene, PET, Wood

Dimensions: 133-100-122 R17.2 @ 177

Tail: Partial Twin Tip

Men's Skis

Head

Kore 93

The Head Kore 93 Skis combine uncanny precision and power with a featherweight design that enhances edge to edge quickness and preserves your own energy for longer. This is a responsive all-mountain tool.

Season: 2024/25

Sizes: 156, 163, 170, 177, 184

Ability: Intermediate-Advanced

Best In: All Mountain, Alpine Touring

Profile: Rocker/Camber/Rocker

Radius: Short

Men's Skis

Head

Shape e-V5

Fun and playful, the new Shape e.V5 is an easy-turning, frontside ski. The construction includes woodcore composite with sidewalls, enhanced in the front with HEAD's EMC technology, which absorbs negative vibrations creating a smoother ride. ERA 3.0 makes turn initiation a cinch thanks to the rockered tip combined with full edge contact for groomed snow performance.

Season: 2024/25

Sizes: 156, 163, 170, 177

Ability: Intermediate-Advanced

Best In: Carving

Profile: Rocker/Camber

Radius: Short

Core: Carbon, Graphene, Wood

Dimensions: 128-74-109 R11.3 @163

Tail: Flat

Men's Skis

Head

Shape e-V10

The new Shape e-V10 features top technology and a user-friendly geometry that suits all-mountain skiers. A wide tip and tail, an 85-mm waist and HEAD's rocker-enhancing ERA 3.0 support quick turn initiation, reliable edge hold and soft snow performance. EMC, or Energy Management Circuit, reduces vibrations, while a Tech Backbone in the wood core reduces unnecessary weight and increases hard snow performance.

Season: 2025/26 & 2024/25

Sizes: 156, 163, 170, 177

Ability: Intermediate-Advanced

Best In: Carving, All Mountain

Profile: Rocker/Camber

Radius: Medium

Core: Carbon, Graphene, Wood

Dimensions: 139-85-121 R12.3 @163

Men's Skis

Head

Super Shape e-Rally

The 2026 Head Supershape e-Rally gets a new graphic for this year but returns structurally unchanged. As one of the more versatile frontside carvers out there, the Rally has developed something of a cult following. With a waist approaching 80 mm and a race style build, this ski is a wider-bodied carver that can be employed almost anywhere on the mountain. While some of the Supershape skis are more adherent to the stated and shorter turn radius, these Rally's can be opened up and used at higher speeds with little to no consequence. They're smooth and easy to turn but have an impressive

Season: 2025/26 & 2024/25

Sizes: 156, 163, 170, 177

Men's Skis

Head

Super Shape e-Titan

The 2026 Head Supershape e-Titan gets a new graphic for this year, but returning unchanged in shape and build. As a company, Head has had a lot of success in the racing world, and the fact that they're able to filter in a bunch of that technology to the more recreational side of their ski spectrum is pretty darn awesome. The Supershape series is all about making clean and round turns on the hill, and while the Titan is the widest, it's no different in achieving that goal. By focusing on technology in the build and sophistication in the shape, Head takes that race room mentality and firmly plants it into the Supershape line. Because of the weight and stiffness of the ski, the Titan is best when on the feet of advanced and expert skiers, including former racers who are looking for a strong carver in a wider-bodied format. This is a strong ski with a ton of power and stiffness.

Season: 2025/26

Sizes: 163, 170, 177

Men's Skis

K2

Mindbender 89Ti

The Mindbender 89Ti is an all-mountain freeride ski with a carving pedigree. Outfitted with classic construction, it packs a powerful twist thanks to Titanal Y-Beam technology, delivering precise, predictable, and smooth turn initiation with enhanced power transfer. These 89Ti's are optimized for a fluid hardpack experience, offering confidence-inspiring stability and high-speed edge hold. The Mindbender 89Ti is the perfect dynamic companion when you're in the mood to rip, but soft snow isn't on the menu.

Season: 2025/26 & 2024/25

Sizes: 164, 170, 176, 182

Ability: Advanced-Expert

Best In: All Mountain

Tail: Full Twin Tip

Gender Neutral Skis

Line

Blade

With their ultra-wide tip and radical 13.5 meter sidecut, the Line Skis Blade Skis look like nothing else on the planet. Their performance is otherworldly as well, handling deep snow and crud like a boss while still carving clean arcs on the groomed like a race ski minus the hard work. Gas Pedal Metal construction, with an intricately cut Titanal laminate under the topsheet, gives the Blade uncommon stability at speed and smooths out the chatter, while a "mini swallowtail" at the rear of the ski provides a touch more float in the soft stuff. More than just a curiosity, the Blade is a unique design that has gained some diehard fans world-wide.

Season: 2025/26

Sizes: 160, 169, 176, 181

Ability: Advanced-Expert

Best In: Carving, All Mountain

Line

Chronic 94

The Line Skis Chronic 94 Skis are the latest iteration of a true park classic, and better than ever with an Aspen Veneer core, Bio-Resin construction, Thick Cut Sidewalls and tough Thin Tip profile for low swing weight and durability. The Chronic 94 is the way to go if park is your passion.

Season: 2025/26

Sizes: 164, 171, 178, 185

Ability: Intermediate-Advanced

Best In: Park & Pipe

Profile: Rocker/Camber/Rocker

Radius: Short

Core: Wood

Dimensions: 123-94-117 R16.3 @ 178

Tail: Full Twin Tip

Gender Neutral Skis

Line

Chronic 101

Rumor has it that a friend's dad snuck out on his Line Skis Chronic 101 Skis on a school day and pronounced it, "A damn fine ski." Will wonders never cease. The same ski you use to boss your way around the park is actually a fine "all mountain" ride, as deemed by a seasoned trad skier . . . The truth is, the Chronic 101 does have that dual, Jekyll and Hyde personality, but both are darn friendly. A perfect choice for the freestyle vet who chases powder and steeps in their spare time, or the old schooler who wants to break free of the carver rut.

Season: 2025/26

Sizes: 165, 172, 179, 186

Ability: Intermediate-Advanced

Best In: Park, Pipe, All Mountain

Nordica

Unleashed 90

Set yourself free with Nordica's Unleashed 90. Designed for up-and-coming rippers, this modern freeski is as playful as it is versatile. To boost the confidence of younger skiers, it features a full wood core with a vertical sidewall. This design enhances edge hold while offering a smooth ride that maximizes performance. Its rocker profile is at home no matter the terrain or conditions. And for exceptional stability and plenty of pop, the Unleashed 90 sports traditional camber underfoot. Its early rise tip and tail provide floatation on deep days and give you the freedom to play with style. Dream big and be you with Nordica's Unleashed 90.

Men's Skis

Volkl

Mantra 88

The subtle tweaks that mark the new Völkl Mantra 88 Skis only serve to make it more dialed than ever. What's different? The carbon fibers in the tips no longer bend upward in a smile, but seem to be frowning at you - we're happy about the change, though, since it makes the ski bend into the turn a bit more smoothly and increases straightline stability at the high end. They've also adjusted the width of the Tailored Titanal Frame a tiny bit for a bit more torsional stiffness underfoot and less at the tip. End result, a hard charging ski with tons of power and edgehold to burn that will appeal to strong skiers who push the limits.

Season: 2025/26 & 2024/25

Sizes: 163, 170, 177, 184

Ability: Intermediate-Advanced

Best In: Carving, All-Mountain

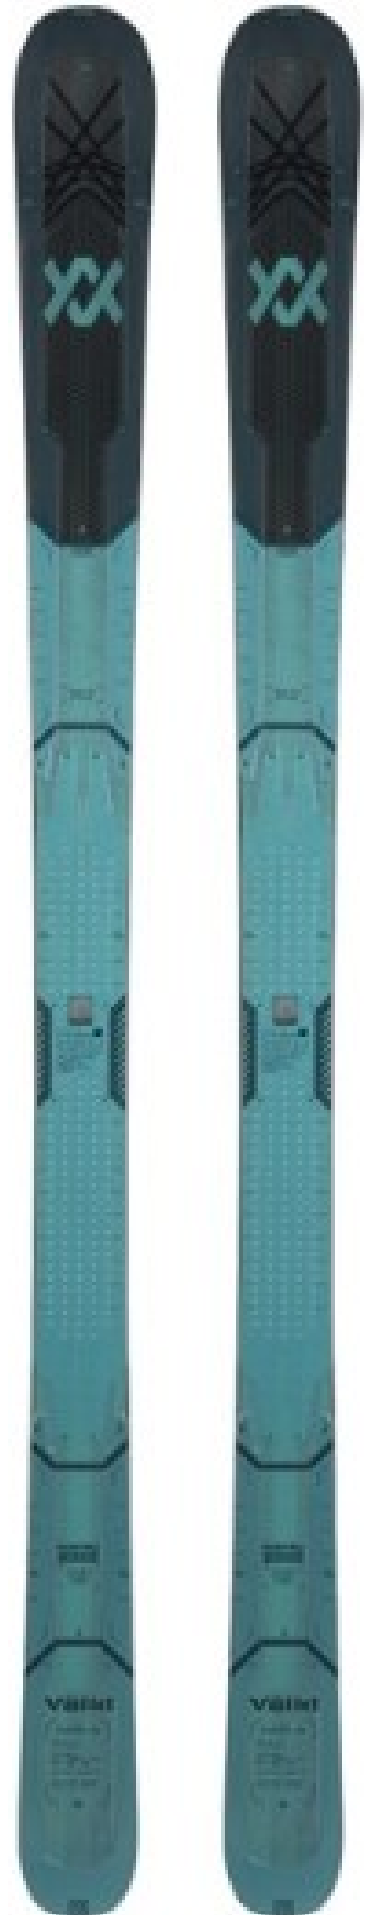

Profile: Rocker/Camber/Rocker

Nordica

Unleashed 90

Set yourself free with Nordica's Unleashed 90. Designed for up-and-coming rippers, this modern freeski is as playful as it is versatile. To boost the confidence of younger skiers, it features a full wood core with a vertical sidewall. This design enhances edge hold while offering a smooth ride that maximizes performance. Its rocker profile is at home no matter the terrain or conditions. And for exceptional stability and plenty of pop, the Unleashed 90 sports traditional camber underfoot. Its early rise tip and tail provide floatation on deep days and give you the freedom to play with style. Dream big and be you with Nordica's Unleashed 90.

Salomon

QST 94

With a touch more surface area for better performance in soft snow, and a Basalt/Fiberglass weave taking the place of the Carbon/Flax construction of previous years, the new Salomon QST 94 Skis slots into the QST lineup as a better all-conditions ski that still rides like a champ on the groomed. Full Poplar woodcore, Cork Damplifier inserts at tip and tail to quell vibrations, and some splashy new topsheet art, the QST 94 is poised to become your next daily driver.

Season: 2025/26

Sizes: 156, 164, 172, 180

Ability: Intermediate-Advanced

Best In: All Mountain

Junior Skis

Atomic

Bent Chetler Mini

It's pure magic when your kid graduates from wedgie everywhere style to making real parallel turns and taking on the whole mountain, but it's not something you can pull out of a hat - you need the right gear. Point them in the right direction with the Atomic Bent Chetler Mini Skis with an "all-mountain" 93mm waist (that's like a 102mm to you) and find out what they're really capable of. Powder Rocker, a LilghtWood and Densolite core, and Dura Cap Sidewalls mean this is a real ski, not a toy.
